PROFESSIONAL SUMMARY

Versatile Web Developer with expertise in both frontend and backend development. At CWD Limited, I design and implement seamless web applications for IoT products, ensuring efficient and scalable solutions that meet user needs. My full-stack capabilities enable me to deliver comprehensive, high-quality web solutions.

PROFESSIONAL EXPERIENCE

Web Developer | Jun 23 - Present

CWD Limited, Ghansoli 📄

Led the development and optimization of CWD Limited's website, integrating IoT device management, user and merchant customization, and transaction data visualization. Introduced features like a tree view for groups, multi-step forms, and a responsive UI. Improved code efficiency by removing over 10,000 lines of redundant code and consolidating files. Enhanced the UI with dashboards and graphs, and upgraded error handling and route management.
